To support the development of outstanding healthcare providers, all PY4 students will engage in and complete the following as part of their CPD and Continuing Education requirements. Continuing Education and CPD Requirements will be maintained and tracked within E*Value. Students may begin working on these requirements within E*Value by accessing ‘Coursework’ on their E*Value homepage or via the Learning Modules tab. Upon completion, students, will then review their CPD and Continuing Education activities with their advisor. Please see the Rubric at the end of this document that will be utilized for any area that requires a reflection.

- Updated CV – document upload in E*Value
- Confidence Assessment – completed in E*Value:
  - At this point in time, reflect on your experiences thus far as a student pharmacist and assess your confidence on the ACPE Standards 1-4. Read each standard carefully to accurately assess yourself. Be prepared to discuss your responses with your advisor. The assessment categories are: Beginner, Competent, and Proficient. Remember, this assessment is based on your own perception and how you feel you are performing in each area:
    - Standard 1 – Foundational Knowledge
      - 1. Develop, integrate, and apply knowledge from the foundational sciences to evaluate the scientific literature, explain drug action, solve therapeutic problems, and advance population health and patient centered care.
    - Standard 2 – Essentials for Practice and Care
      - 2.A. Patient centered-care – Provide patient centered care as the medication expert (collect and interpret evidence, prioritize, formulate assessments and recommendations, implement, monitor and adjust plans, and document activities).
      - 2.B. Medication Use Systems Management - Manage patient healthcare needs using human, financial, technological and physical resources to optimize the safety and efficacy of medication use systems.
      - 2.C. Health and Wellness – Design prevention, intervention and educational strategies for individuals and communities to manage chronic disease and improve health and wellness.
    - Standard 3 - Approach to Practice and Care
      - 3.A. Problem solving – Ability to identify problems; explore and prioritize potential strategies; and design, implement, and evaluate a viable solution.
      - 3.B. Education – Educate all audiences by determining the most effective and enduring ways to impart information and assess learning.
      - 3.D. Interprofessional collaboration – Actively participate and engage as a healthcare team member by demonstrating mutual respect, understanding, and values to meet patient care needs.
      - 3.E. Cultural sensitivity – Recognize social determinants of health to diminish disparities and inequities in access to quality care.
3.F. Communication – Effectively communicate verbally and nonverbally when interacting with individuals, groups, and organizations.

- Standard 4 - Personal and Professional Development
  - 4.A. Self-awareness – Examine and reflect on personal knowledge, skills, abilities, beliefs, biases, motivation, and emotions that could enhance or limit personal and professional growth.
  - 4.B. Leadership – Demonstrate responsibility for creating and achieving shared goals, regardless of position.
  - 4.C. Innovation and entrepreneurship – Engage in innovative activities by using creative thinking to envision better ways of accomplishing professional goals.
  - 4.D. Professionalism – Exhibit behaviors and values that are consistent with the trust given to the profession by patients, other healthcare providers, and society.

☐ Overall Development as a Professional Student Reflection – completed in E*Value:
  o For each of the following areas, please identify how you have developed over the course of the academic year:
    ▪ 4.A Self-awareness – Examine and reflect on personal knowledge, skills, abilities, beliefs, biases, motivation, and emotions that could enhance or limit personal and professional growth.
    ▪ 4.B Leadership – Demonstrate responsibility for creating and achieving shared goals, regardless of position.
    ▪ 4.C Innovation and entrepreneurship – Engage in innovative activities by using creative thinking to envision better ways of accomplishing professional goals.
    ▪ 4.D Professionalism – Exhibit behaviors and values that are consistent with the trust given to the profession by patients, other healthcare providers, and society.
  o Looking back so you are prepared to move forward:
    ▪ If you could travel back in time to your first day in the College, what advice would you give yourself? Why?
    ▪ Describe the biggest challenges you expect to face after graduation. Discuss why you chose those challenges and how you intend to meet them.
  o Provide concrete examples and describe specific ways you have grown professionally for each outcome. Please write a minimum of 250 words for each area. Please use any of these experiences to support your answers. Remember there will be a separate section to reflect on your Continuing Education hours:
    ▪ You have had in the classroom
    ▪ Clinical experiences
    ▪ During interprofessional learning experiences

☐ PY4 Continuing Education Activity Tracking – documented in E*Value. PY4 students are required to engage in a total of five hours of Continuing Education:
  o During the PY4 year student pharmacists are expected to complete 5 hours of Continuing Education (CE). The CE activities you engage in should focus on self-awareness, leadership, innovation and entrepreneurship and professionalism. CE can be completed in your geographic location or virtually, or through association meetings. This is to help transition you to the completion of CE requirements needed for annual licensure once a professional pharmacist and to ensure you are actively engaged in lifelong learning. The 5 hours of professional development that you showcase through attendance at live CE should strategically align with professional development goals articulated in the CPD plan. For example this can be:
- 1 event lasting 5 hrs
- 2 events: one 2 hrs, the other 3 hrs
- 5 events lasting 1 hr each

Please check the Advising & Co-Curricular Engagement web page for event guidelines and information here: https://pharmacy.wsu.edu/doctor-of-pharmacy/current-student-resources/advising/

- **What can count as a CE activity?**
  - It should not be a rotation requirement - it should instead be an additional activity in which you engage outside of those requirements. For example, your preceptor may require you to attend a presentation--this would not be considered. However, if an opportunity is pointed out to you (by the institution, your preceptor, and organization you belong to, etc.) and you attend or participate for your own interest, that is considered a valid submission. These can be in-person or online. Please see the link above for a more comprehensive outline of what is suggested.
  - It relates to the purpose of the PY4 Continuing Education requirement.
  - You are able to articulate how the activity enhances your development as a student pharmacist.
  - The activity has occurred during the program year for which you are hoping to use it for. For PY4, activities may start to count once the Spring semester of your PY3 academic year has officially ended (last day of the term has passed in April/May) and by the time of your PY4 academic advising appointment.

- **Information needed for each CE:**
  - Date(s) - Please provide the date(s) in which the event occurred (DD/MM/YY)
  - Event Title – Please be specific. Example: Interviews vs. College of Pharmacy and Pharmaceutical Sciences PharmD Candidate Interviews
  - Hours spent for each CE

☐ Continuing Education Reflection – completed in E*Value:
  - Describe the most impactful CE activity you participated in related to professional development. (Max 250 words)
  - How did participating in this CE Activity help you meet your professional goals, and in what way(s)? (Max 250 words)
